Full-Stack Software Developer with a passion for creating elegant, user-friendly products. Proven ability to develop and deploy full-stack applications using a variety of technologies, expertise in API integration, and cloud computing. Seeking a challenging role in a fast-paced environment where I can use my skills and experience to make a real difference.

Skills

Programming Languages — Javascript, Typescript, Java

Frameworks and libraries — Spring Framework, JEE, React.js, Next.js,

Databases — Mysql, Microsoft SQL Server MongoDB, Oracle

Version Control — Git, Github

Others — SASS, SCSS ,React Redux, Redux Toolkit, Gulp.js, Pug.js, CI/CD, Unit Testing.

Professional Experience

Front-End Developer, INTEGRAL PROGRESS TECHNOLOGY

April 2024 – August 2024
Marrakech, Morocco

- Developed and integrated web pages for the Quality Management module in an ERP system using **React**, **TypeScript**, **TailwindCSS**, and **Mantine**, enhancing user experience.
- Implemented **API integrations** to fetch and display dynamic data, improving functionality and user interaction.
- Managed application state with **Redux Toolkit** and performed form validation using **Yup** and **Formik** for accurate data processing.
- Communicated with backend APIs to handle errors, provide efficient feedback, and enhance error management.

Software Developer, Freelance

January 2023 –
September 2023

- Created **desktop and web applications**, delivering tailored solutions to clients.
- Integrated the **OpenAI API** to automatically generate articles from keywords, enhancing content creation processes.
- Deployed applications on **cloud servers**, configured production environments, and implemented online databases for scalability and performance.
- Developed **web scraping** and **automation scripts** to streamline data extraction and repetitive tasks for clients.

Full-stack Developer (Internship), FSJES MARRAKECH

November 2022 –
December 2022

- Creation of a web application to manage diploma requests and storage.
- The administration panel manages diploma status and student information, and helps manage diploma storage by providing users with a unique number referencing the diploma's location.

Web Developer (Internship), PIXELLEADS

March 2022 – March 2022

- Design and development of a blog manager (**React.js**, **Node.js**, **Express.js**, **MongoDB**).
- Production, integration, and deployment of the product to users.
- Implementation testing and bug fixing.

Projects

Magic UI, *contribution open source*

June 2024 – present

- Integrated **new components**, improving both functionality and user experience within the Magic UI library.
- Developed and maintained a **linting system** to ensure code quality and consistency across the project.
- Authored comprehensive **installation documentation**, streamlining the onboarding process for new users and developers.

EsteQuiz : University Exam Platform

January 2024

- Developed a comprehensive **exam platform** with a user-friendly interface to provide a seamless experience for students.
- Enabled teachers to have advanced **administrative capabilities** for efficient exam management, including exam creation, grading, and reporting.
- Utilize **React.js**, **Node.js**, **MongoDB**, **Zustand** for state management, and **JWT** for secure authentication.

E Student Rent

May 2022 – June 2022

- Developed a platform allowing users to **list properties** quickly and reach thousands of students daily.
- Implemented features to **find the best offers** for students based on their city or university.
- Enabled users to **search for housing** near their university or other desired locations, improving accessibility to suitable accommodations.
- Utilized **React.js**, **Next.js**, **TailwindCSS**, **Node.js**, and **Express.js** to build a responsive and efficient application.

Education

Professional Bachelor's Degree in Computer Systems and Software Engineering, *Essaouira Higher School of Technology - Cadi Ayyad University*

October 2023 – July 2024
Essaouira
